

There is a little out of harmony with
Quakers on out of one of that fraternity having
ruled him out of 6 Guineas in one of his foreign
honors — Mr. Brewster told a story yesterday
at a considerable meeting in Mon. City, after dinner
on the King's that the being drunk a Quaker was
proposed to drink the toast, which he declined,
but taking up his Glass said "May George never
be sick" & the sentiment was warmly applauded.
Now I say in spite of Mr. Goreau that this
feigning & this kind of moral Revivification is
way of cheating the SWIC —
