

I was pecking and fuming - that I had put off our
Party to Thur's week this fine cool morning - when
your message came to quiet my spirits and reconcile
me to the disappointment - as I find I could not have
had your company. I am very glad Sir Will^m Hamelton is
come to Town - I hope in perfect health and spirits
I shall be happy to see you both as soon as you can
bestow that pleasure on your most affectionate and
obed^t Child

I
At the same time have a flying message
of you as soon as you can
