

NAM 1/14/66

Dec 14 1860

Many thanks my dear friend
Nob, my cough is vastly much
better, & I am very well in every
respect. You say nothing of yr
self which I hope may be a good
sign, but I did not like your
looks last Friday, it is not a
very polite thing to say to a young
lady, but it proceeds from good
will & real wish of yr enjoying
that health & happiness which I
wish — The children are all
well — I gave yr love to Mr
Mum & — & am sure they would return
it now if they knew I was writing —
They keep the key as long as you
please, you know I am sincere before
I near you, but I really wish that
you would converse with you as long as you

please - when my son
