If I had not long left off that
childish thing called Wonder, I
should I own have done so very much
this Morning at the Receipt of yr
Letter, as I own it is totally incompre-
hensible to me, as I am not conscious
of not having answered your Letters,
or wassd to allow you a share of my
regard, nor can you for a Moment
if you will give yourself the trouble
to think, recollect one Instance that
deserves that Imputation since I first
had the pleasure of yr Acquaintance
I can not help thinking but
that Miss Planta must have

mistaken about the Messager till
she troubled you with, but trust
as to the time I am sure she must
for I certainly could not think of
giving you any, in a letter, till
answered one in the which my Name
was not even mentioned, & I had
some time ago both from you
& Miss Ann Fluke Miss Forbes's
direction, & sent her the last Quash.

I sincerely wish you all Health
& Happiness & am Dear Miss Barnes

Yours
M. Chalmers
