Typed

My Dear friends.

As I love you all dearly
I have long wished to hear from
you; and my immediate answering
your kind letter will convince
you how much I was gratified
at my arrival in town, to find
a letter from you. if my eyes
were as good as my heart is to;
wands you all; My Scravls
would much oftener be brought
to you; altho you would not
think them worth the postage.

I live so much out of the world, in my next, I will give you an
that you could better inform me account how I spend my time in
what passes in London than I could, my retirement; now I cannot,
and therefore you must not expect for want of time —
any news from Thence. of Hampton, God bless you all! —
nothing but lamentation could Miss More is well at Cawslip.
come from my Pen, for from
the month of May, to this time,
were nothing then winter months.
and all my fine fruit was dis-
trayed — I hope the summer
will begin at Christmas, that I
may at least put on my new
made up muslin gowns, before
they will become out of fashion.

Ever yours

M: Garrison.
