

My dear Miss Hamilton

VAM/1/7/5/4

If it were not so late I should write to you with a long Message from D.D. but as it is I will write you the substance of it. viz - that she wishes you could dine with her on Saturday at 3 o'clock, & go with her to their new Purchase after dinner. If you cannot on Saturday perhaps you could on Sunday. do it heartily yourself & answer this to me as I shall not see her before the time, but she begs you will send her y^r. determination as soon as possible.

Y^{rs} most sincerely

J. Fielding

I hope you have been well entertained with the Play & its Spectators - D.D. cannot write herself being much hurried with having sh^{rs} Look in the house. I conclude you know all that Story & there is nothing new to add upon it but that she has had a 2^d Letter from him rather more satisfactory than the first & tells her where he is
