Dear Mr. Dickenson

I am extremely obliged to you for a brace of very fine grouse which I received on Saturday morning in perfect order. I am glad to hear that you are so soon to have the pleasure of Mr. Dickenson's return. I hope he has received all the benefit he expected by the Bath waters.

Robert arrived here from Germany three weeks ago last Saturday, & is so much grown that when he came into the Room I hardly knew him, being near 5 feet 10 inches in stature, & perfectly straight. You may remember there was an idea that he had been in England some time ago with Mr. Fabricius which he denied very positively, as Robert does also to my perfect conviction. He has not been attended to by any means in the manner I had a right to expect which upon his complaints, was the reason of my bringing him home. He is this day 18 complete & is now labouring with great diligence to make himself fit for his new station, in point of figure

he will be thought a capital Recruit, & as he is well disposed
I am inclined to hope that I shall not be ashamed of him.

I have received your letter some days ago, & will soon write to
you herself, to thank you for it. My Family in general desire
to be affectionately remembered to you, & Mr. Dickenson. I remain

Dear Madam

P. S. Mr. Greville's being in Town is
always so uncertain, that any letters
you may intend to favor me with, I
won'd by no means have enclosed to him
